PROFESSIONAL SUMMARY

Senior Full Stack Developer and technical leader with 7+ years of experience architecting scalable web and mobile applications across modern JavaScript (React, Next.js, Node.js) and WordPress ecosystems. Proven expertise in performance optimization, headless CMS architecture, and delivering robust cross-platform solutions. Adept at managing cross-functional engineering teams and driving high-impact product deployments alongside industry-leading startups including Khatabook, Nurix, STOA, and Curefit.

TECHNICAL SKILLS

- **Frontend:** JavaScript, TypeScript, React, Next.js, React Native, Tailwind CSS, shadcn/ui, Redux Toolkit, TanStack Query, React Hook Form, HTML/CSS
- **Backend:** Node.js, Express.js, PHP, REST APIs, AWS SDK
- **Cloud & DevOps:** AWS (Lambda, API Gateway, S3, SQS), Terraform, AWS Powertools, GitLab CI/CD
- **Databases & Data:** DynamoDB, MongoDB, MySQL
- **Testing:** Jest, React Testing Library, Mocha, Chai
- **WordPress:** Custom Plugin development, WooCommerce Integration

WORK EXPERIENCE

Lead JavaScript/WordPress Developer
Appycodes

March 2020 – Present
Siliguri, West Bengal, India - Onsite

- Architected scalable backend solutions using Node.js, AWS Lambda, and DynamoDB to offload heavy logic and processing from main servers, ensuring high availability and performance.
- Built and scaled a SaaS platform for the furnishing industry utilizing Next.js and Node.js, which currently supports over 4,000 active users.
- Led the end-to-end development of multiple mobile applications for startup clients using React Native, managing the full lifecycle from codebase architecture to app store deployment.
- Migrated a legacy WordPress site to a modern headless architecture, utilizing Next.js for the frontend and seamlessly integrating Algolia for instant, faceted product filtering.
- Implemented custom KYC and BNPL (Buy Now, Pay Later) modules using the TWO BNPL/KYC API within modern frontend environments, directly contributing to a 40% increase in GMV.
- Managed technical operations for a large-scale e-commerce site handling over 2 million items, which included creating custom WordPress plugins, optimizing Core Web Vitals, and improving load times.
- Developed a robust custom vendor tool utilizing JavaScript to allow users to efficiently import and export heavy product catalogs via CSV across different SaaS applications.
- Directed a team of 8+ developers across up to four concurrent projects, bridging the gap between modern JavaScript applications and traditional CMS customizations.

Junior Developer
Mus Technologies Services Pvt. Ltd.

Nov 2018 – Feb 2020
Siliguri, West Bengal, India - Onsite

- Co-developed a consumer-facing Wallet application utilizing React Native, which successfully registered over 1,000 users within its first week of launch.
- Collaborated within a 4-developer team to build backend support services using PHP for processing mobile recharges, bill payments, and travel ticket bookings.
- Built dynamic administrative portals, customer report modules, and dispute management dashboards using HTML/CSS and JavaScript.

EDUCATION

GNIIT Diploma in Cloud and Mobile Software Engineering
NIIT

Sept 2016 – June 2018
West Bengal, India

Bachelor of Commerce
Seth Motilal PG College

June 2013 – June 2016
Rajasthan, India
